**Challenges:** Our guests have received car seats, and pack-n-play from the Public Health Nurses. We often discuss abuse, crib, sleep safety and car seat safety. Visiting Public Health Nurses have been overheard discussing these issues as well. We would like DVDs for our computer that we could use with our guests highlighting these (above) issues.

Three weeks ago on March 9 we accepted a guest (originally from here but living in St. Cloud) who continues to argue and intimidate all in the home. As Co-Director I met with her Tue.(Mar.24) and said the Philomena Program was not a good fit for her and she needed to find other housing. She stated she had "no intention" of doing that. On Thur. around 5 p.m. she called and told me she needed to see me. I went to Phil.Hse. and she said our housemother is a "reckless driver". After speaking to both I discovered Sharon bumped the curb when parking in front of the house because of the distraction ■■■ caused "screaming at me". I announced to ■■■ that Sharon would be unable to take her to the store or ANYPLACE in the future and that she needed to arrange rides for herself or use our bus card. Also that she must be moved out by Sunday, March 29 by 2 p.m. and that we could give her additional housing info. Again she stated "I am not leaving here!" I reminded her that she signed an agreement that she had not kept.

**Comments:** One guest has been very negative and intimidating in her approach with the other guests and the staff including volunteers. It is obvious she has no interest in cooperating with us and we cannot help her move forward and cannot continue to provide further services. She had signed a letter saying she will leave by Friday 4/3. She did not leave then. She left her things on April 9 and called Phil.Hse. on 4/10 to say she delivered a healthy boy. Eviction papers were served on April 13. On 4/19 she returned to pick up her things (Screaming and intimidating our housemother the entire time). Lawyer called (4/22) and asked us to drop the eviction so she could obtain other housing. We did drop the eviction for the sake of mother's newborn son.

-- We have "tightened up" our Admission Form. We intend to try to impress the women on importance of "working" our program.
